Tools for Life, Georgia's Assistive Technology Act Program, provides options for greater freedom by increasing access to and acquisition of assistive technology (AT) devices and services for Georgians of all ages and disabilities so they can live, learn, work, and play independently in communities of their choice. The Tools for Life Tour will provide educators an opportunity to become familiar with assistive technology to support increased access to the curriculum and the learning/recreational environment.

Georgia Tech  **Center for Inclusive Design and Innovation**
